

Universal Health Network & Nevada Preferred Professionals Directory

Terms and Conditions

The information provided below is to give you necessary information when selecting or checking for a preferred provider.

Special Information about this Directory:

UHN and NPP are different provider networks. Both are administered by UHN. The logo that appears with the provider information on the search screen tells you if your selected provider is on your network. The logo on your ID card must match the logo listed with the provider's information to be considered as in-network.

Providers Practicing in Groups - Providers listed in this directory may practice in more than one group. Not all groups or all providers within a group are necessarily preferred providers. If you have questions after searching the web directory please call (800) PPO-6959 or (800) 776-6959 prior to your appointment to verify the network status of your selected provider.

Provider Location - Individual providers may practice in a variety of different office locations. The listing of a specific provider does not mean that the preferred provider status applies to all practice locations. Before you visit a provider with two or more offices, please verify that your choice is listed as a preferred provider location.

Provider Specialty - If you are unable to locate a specific provider under a given specialty, please refer to the alphabetical index to locate the provider by name.

What Services are Covered - This provider directory does not guarantee that all services of all providers will be covered under your health care plan. Be sure to consult your Certificate of Insurance or other health care plan description to determine what types of providers and services are covered. Failure to check this could result in a reduction in your benefits or increased "out-of-pocket" expenditures for the medical services rendered.

Providers Changing Status - This directory is subject to change. New providers may enter the networks. Currently listed providers may no longer participate. To receive PPO advantages you must use a Preferred Provider. Therefore, each time care is needed; verify Preferred Provider status before services are rendered. Ask the provider if s/he is participating in the UHN or NPP network or call us at (800) PPO-6959 between 8 am and 5 pm PST.

Effect on Benefits - It is your responsibility to verify that your choice of provider and/or location of the office/facility is in fact a participating provider under your specific benefit plan. Failure to do so may result in reduced or denied benefits and higher out-of-pocket expenses to you.
